

1. Manufacture to IPC-A-610D workmanship standards
2. This is a static sensitive assembly - use static eliminating measures during assembly and handling
3. For non-assembled PCB please refer to IPC-1601: Printed Board Handling and Storage Guidelines
4. For handling assembled PCB (PCBA) ESD protective packaging should be used. Please refer to EN 61340-5-2 User Guide clause 4.8.3 Selecting/designing the right package
5. Designations are for reference only
6. Orientation of polarized components is indicated by dot or fill
7. DNP components are not indicated on drawing views
